Online scams are putting the life savings of senior citizens at risk

Q1 The scale in 2025

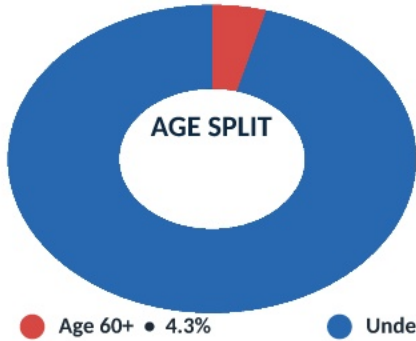

Online financial fraud is now a mass problem, and senior citizens face unusually high-value losses.

1,03,488
senior complaints

₹4,005.12 CR
reported amount

Source: MHA / NCRP data for 2025, presented in Rajya Sabha (Aug 2026).

Q2 Who bears the heavier loss?

Only 4.3% of complaints

But nearly **18%** of value

The average reported impact is far higher for senior citizens.

Age split calculated from 2025 NCRP financial-fraud complaint data.

Q3 Five-year rise in reported fraud

All-age NCRP complaints • senior split shown only where published

YEAR	ALL-AGE COMPLAINTS	AGE 60+
2021	2.63 lakh	—
2022	6.94 lakh	—
2023	13.10 lakh	—
2024	19.19 lakh	—
2025	24.03 lakh	1,03,488

Source: NCRP financial-fraud series, 2021–2025. No complete annual senior-only series is published.

Q4 If this keeps growing...

- 01

RETIREMENT SAVINGS

Years of savings can disappear in minutes.
- 02

DEPENDENCE & DEBT

Victims may become financially dependent on family.
- 03

SHAME & ISOLATION

Fear of judgement can delay reporting and support.
- 04

REPEAT TARGETING

Stolen data can expose the same person again.

The damage is financial, emotional and long-term — not just a single transaction.

My mom got scammed and lost Rs 62,000 today. Can anything be done?

This is how it all happened

I stay in a different city. Back home my maternal grandmother is sick and came to stay with my mom. A relative of ours who is a doctor suggested availing a service from Dhani to get a test done. (We had availed this service earlier once last month and everything went smoothly the last time, and the payment was done to the guy's Gpay number who came to take the samples.)

What happened this time:

Help! I think my mom is getting scammed and I don't know how to stop it!

So, this story starts a few months back when my mom set up my Jeevansathi profile to find an eligible partner for me. The process we set up was that she would look for profiles and if she found any of them to decent/appropriate for me, she would forward them to me. This was decent system that was working fairly well.

However, it all went to hell when X entered the picture. My mom found his profile on Jeevansathi and thought he was a decent profile. They chatted for a while on Jeevansathi

Need legal advice: Father caught in a “rice pulling” scam, lost 3+ crores

My father (in Hyderabad, India) got acquainted with a man from Andhra Pradesh who has been scamming him with the so-called “rice pulling” scam for the past 5 years. My dad has invested over 3-4 crores into this scam and still refuses to believe me or anyone else when we tell him it's fraudulent.

I live in Canada and feel helpless watching this from afar. My mother is a housewife with no income of her own and no means to take legal or financial action. I myself am a student

My mom got scammed for 50k

Some one scammed my mom for 50k through what's app

So my mother order a parle G from blink it and she got smaller one instead of bigger one she ordered. As I was at work and I m not allowed phone, she called my frnd and asked her where can she contact customer after that my mom tried to find it on the app but she could not so she said Google it and called on number which popped up and a man picked. He made my mom download a app avvaldesk and made her share her screen after which he scammed my mom of 50K which was transferred via 4 transaction and 3 bank accounts (ik

URGENT HELP : SCAM / FRAUD / HACK into my mother's Bank acc. and Rs 1L has been transferred.

We still don't know what or how it happened, and any help would be greatly appreciated.

My mom's SBI account was recently deactivated and we didn't know why. when we went to the bank, they told it was due to insufficient balance. We asked for a transaction log and found out that someone has taken around 1 lakh from my mom's account in 2 payments (49999 and 49998) on 10th March. We searched through her SMS and found out that it was through INB (Internet Banking) and It was to One97 communications.

My parents got scammed then joined the scammer.

6 years back my parents joined a spiritual meditation group called “”. Which is now called “”.

Initially I was skeptical about this group but didn't stopped them because they are not asking for money and focus on meditations. I thought what could go wrong with meditation.

Later covid happened, and one day my parents watching a video of master called  . He was speaking in English (which they partially understand) and telling his devotees to cure covid by  As you know many Indian believe if

My mom got scammed on paytm

My mom wanted to sell our bed and almirah on olx and in 5 minutes we got a buyer. He agreed to our price and wanted to pay instantly.

He send us a paytm scanner and my mom refused to proceed to pay like that. After a while he insisted and asked her to do a transaction of 2 rupees.. And my mom did it and instantly got 4 rupees back.

Now this guy asked her to add 12k in her account for show balance else he wont be able to pay her 2k (12k that my mom paid him + 12k he will pay us)

Today I'll tell you people how my dad gave away ₹28k to an stranger over a call

I didn't find a relevant subreddit to post this, so here I am.

Long read.

We put a house for rent, on Magic Bricks. It was not being occupied for over 3 months since we put it there.

Todav morning we received a call from a man. soeaking in Hindi. and that he wanted the

Kavach is a safety app designed for senior citizens.

It checks suspicious messages and files before they cause harm.

It explains the risk in simple language and brings trusted contact support when needed.

Every step is designed to be clear, quick and easy to use.

PROCESS

01

ANALYZE

- Automatically checks incoming SMS.
- WhatsApp messages can be copied and pasted.
- When an unknown APK is opened, Kavach checks it before installation.

02

EXPLAIN

- Shows whether the content is safe or risky.
- A voice note explains the result in simple language.
- No technical words or confusing warnings.

03

ALERT

- High-risk activity triggers a warning.
- A message is sent to the chosen trusted contact.
- Trusted contact can intervene before money is lost.

04

REPORT

- Kavach asks for the user's permission first.
- It helps prepare and submit the complaint on their behalf.
- The user can review the details before submission.

Protection at every risky digital moment.

Built to help senior citizens check, understand and act on digital threats without technical complexity.

01

AUTOMATIC SMS DETECTION

Kavach checks incoming SMS for suspicious links, urgency, impersonation and common fraud patterns.

02

WHATSAPP COPY-PASTE

A suspicious WhatsApp message can be copied into Kavach for an immediate risk check and explanation.

03

UNKNOWN APK CHECK

When a downloaded APK is opened, Android routes it to Kavach where supported. Kavach analyses it before installation.

04

ASSISTED REPORTING

With permission, Kavach prepares the complaint details and helps submit the report on the user's behalf.

05

VOICE EXPLANATION

A short voice note explains why something is safe or dangerous using clear, everyday language.

06

10+ LANGUAGES

The complete app—including screens, warnings and voice notes—is available in more than ten languages.

07

EASY TO USE

Large text, clear buttons and minimum steps make the app comfortable for senior citizens to use independently.

08

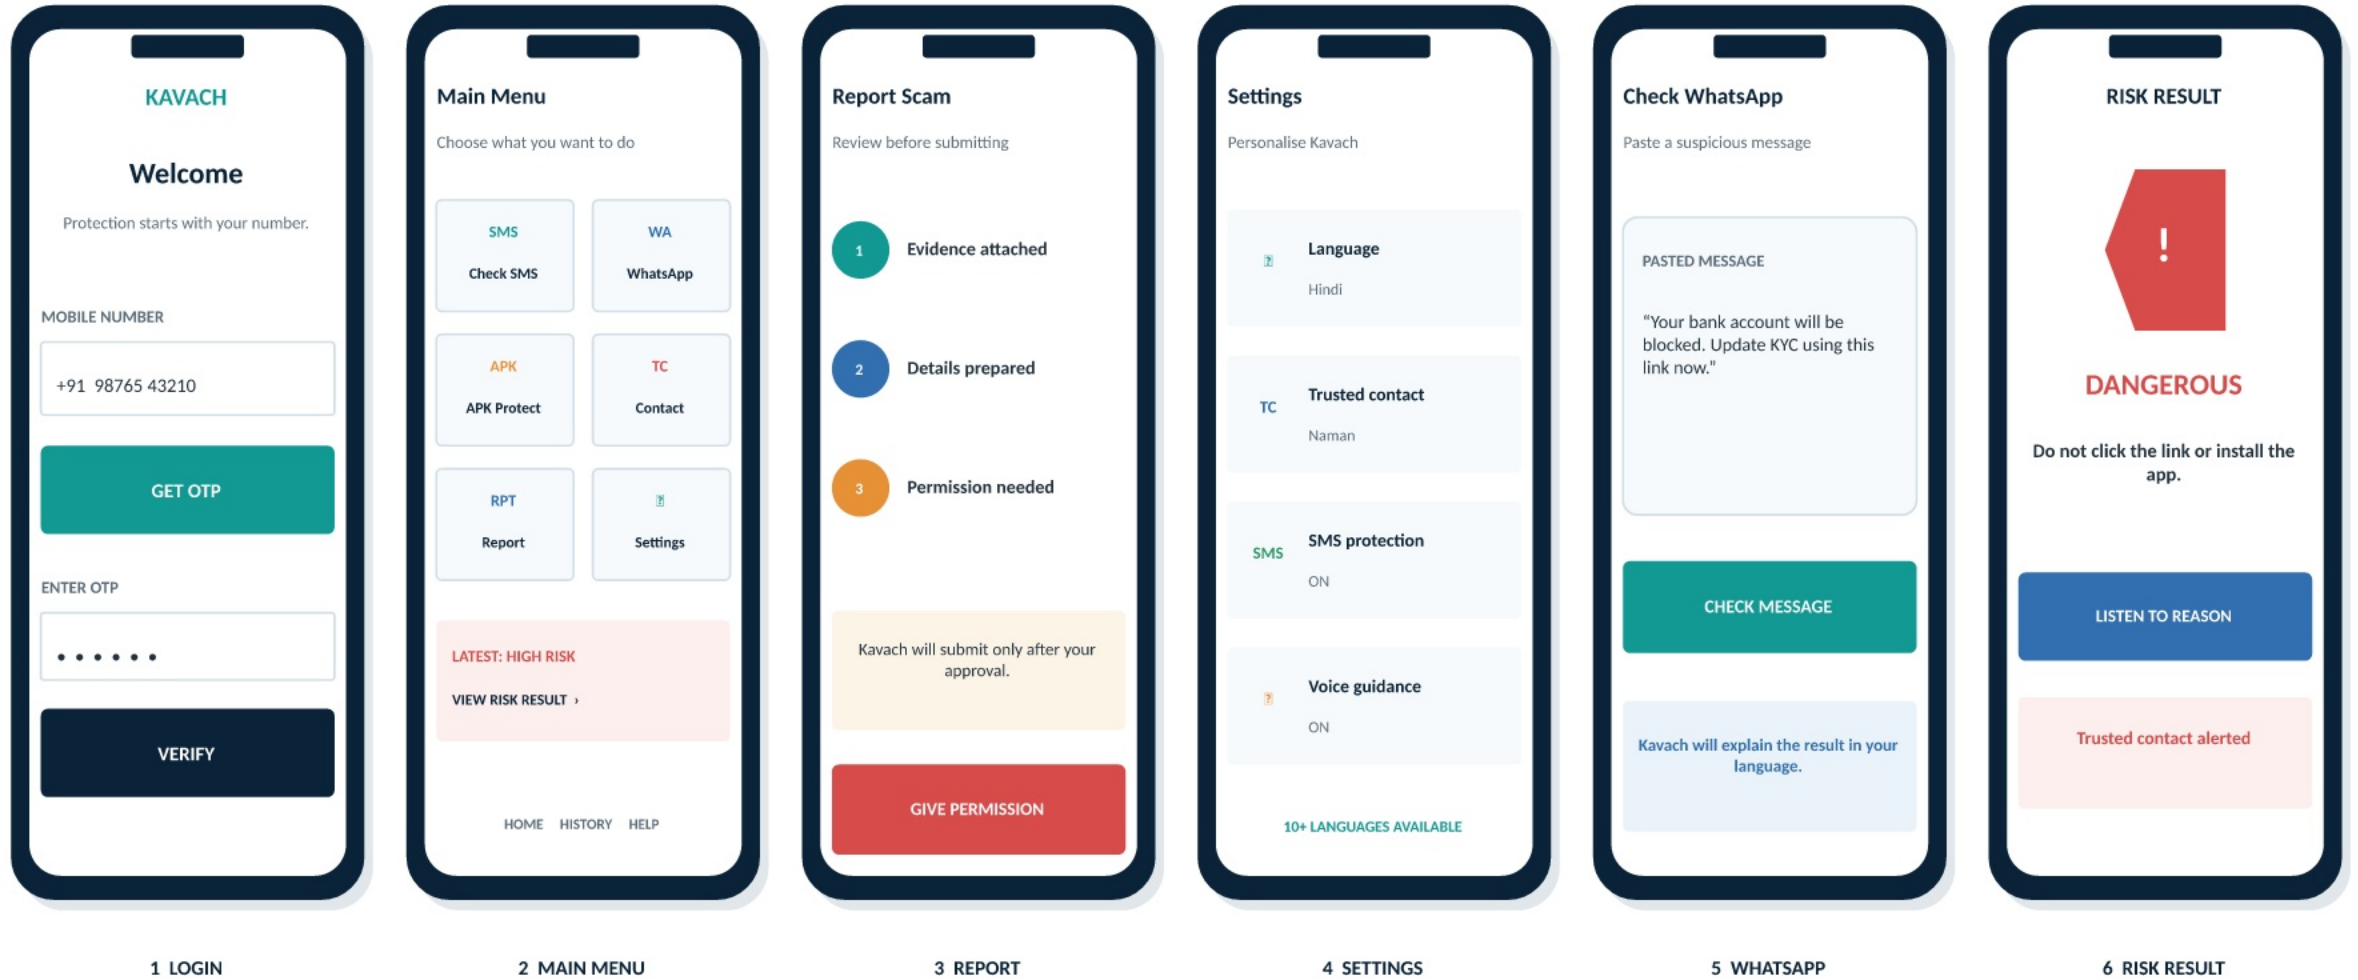

TRUSTED CONTACT ALERT

When a serious danger is detected, Kavach automatically sends the risk details to the selected trusted contact.

Six screens. One clear experience.

Large actions, familiar words and minimum steps for senior citizens.

How Kavach is different

Most products solve one part of the problem. Kavach connects detection, understanding, support and action.

CAPABILITY	KAVACH	TRUECALLER	GOOGLE MESSAGES	PLAY PROTECT	SCAMIO	SANCHAR SAATHI	QUICK HEAL
